

## AVRIL SUPERMARCHÉ SANTÉ MOVES TO THE TOP OF THE FOOD CHAIN IN ORGANIC AND NATURAL PRODUCTS BY DEPLOYING GK'S SAP OMNICHANNEL POS SOLUTION

**This project is among the very first integrations of GK's SAP Point-of-Sale software with SAP ERP for Retail and SAP CAR across North America!**

Montréal, Québec — September 27, 2018

Avril Supermarché Santé, the leading independent Québec grocery chain specializing in organic and natural products, rolled out the GK software Point-Of-Sale (POS) module to improve their in-store operations. This major achievement follows the successful go live of SAP ERP for Retail in November 2017 across all its stores.

As part of their digital transformation journey, Avril decided to extend their collaboration with Beyond Technologies to provide a seamless experience for both their in-store staff and customers.

Beyond Technologies worked in close collaboration with GK Software and ensured an effective implementation in only four months, leveraging Beyond Technologies' unique Retail Accelerator. The project's success has given Avril Supermarché Santé high confidence in deploying the entire SAP ERP system, including the POS module, in their new modern megastore that opened in Laval in June 2018.

Beyond Technologies highly values their long-term partnership with Avril Supermarché Santé, a visionary enterprise with open-minded people, who are always willing to embrace change.

*"The opening of our new store in Laval represents a major milestone in our growth strategy. Relying on a robust and fully operational ERP system is highly critical. Thanks to a great and efficient collaboration with Beyond Technologies and GK Software, we now benefit from an end-to-end centralized ERP system that supports our operations across all our stores," says **Rolland Tanguay, President of Avril Supermarché Santé.***

*"This is a leading-edge project that opens the door to additional opportunities in the retail sector in Québec and North America. Working with an innovative retailer like Avril Supermarché Santé is very inspiring and rewarding for Beyond Technologies. We are honored to support them in their growth and digital transformation journey," says **Alain Dubois, Chief Marketing & Business Development Officer at Beyond Technologies.***

## ABOUT AVRIL SUPERMARCHÉ SANTÉ

Avril Supermarché Santé is a health food store chain that offers organic products, natural supplements and cosmetics. The atmosphere, service and quality of the products make it a prime destination for highly demanding customers. This explains the rapid growth of its market share in Québec. Its stores exude a sense of abundance and well-being; the energy that prevails demonstrates that it is possible to take the time and have fun to meet a basic need: to feed ourselves.
