

FULL STACK DEVELOPER

Solutions Beyond Technologies is a professional services firm specializing in SAP solution integration and business process optimization. We are looking for a SAP ABAP and Fiori consultant to join our dynamic team.

You will be an expert resource in the SAP ABAP and Fiori solution within Beyond Technologies and our clients. You will be the person with whom stakeholders will be confident to work and collaborate with your ability to manage complex challenges by finding cost-effective solutions while demonstrating the added value of your expertise and solutions.

Your tasks :

- Act as a technical expert to ensure rapid identification of application problems and their diligent resolution;
- Provide detailed plans and accurate forecasts for the completion of the project development, testing and implementation phases;
- Transform business function requirements into technical program specifications for the purpose of coding, testing and debugging programs;
- Develop, code, document and execute unit tests, systems, integration and acceptance tests as well as test tools for highly complex functions;
- Optimize performance to improve the performance of multiple functions;
- Collaborate with other members of the technical team in the design, delivery and deployment of solutions;
- Ensure system integration activities including ensuring that the technical architecture (including extensibility, availability and archiving) meets all service level agreements;
- Manage operational support by working during change windows and providing on-demand support as required by the team;
- Work on optimizing the performance of SAP integration activities; mentoring and mentoring novice developers;
- Provide advisory services on new and existing initiatives.

You have :

- Minimum 8 years of ABAP experience
- Solid object-oriented programming experience
- SAP Fiori Development Experience (1 year)
- Experience in gateway development
- Exhibition at HANA
- Strong analytical skills and ability to write technical specifications
- Are considered important assets: experience in the retail sector, HCP or Java experience and ability to write technical specifications

You are :

- Solution-oriented
- Authentic
- Diplomat
- Collaborative
- Creative, with innovative ideas
- Motivated and determined to succeed
- Autonomous with leadership

At Beyond, we want our employees to be happy and healthy both at work and outside of work. Everything we do and offer our employees is based on our philosophy that investing in our people is beneficial for all of us!

We thank you for your interest; however, only candidates who meet the qualifications will be contacted.
