

PRINCIPAL CONSULTANT - FICO

Solutions Beyond Technologies is a professional services firm specializing in the integration of SAP solutions and business process optimization. We are looking for a Principal Consultant specialized in FICO join our dynamic team.

You will be an expert resource in the SAP FICO solution within Beyond Technologies and our customers. You will be the person that stakeholders can trust to work and collaborate with through your ability to manage complex challenges by finding cost-effective solutions while demonstrating the added value of your expertise and our solutions.

Your tasks:

- Perform analyses and give recommendations during the discovery phase, planning and implementation phases of SAP FICO;
- Perform detailed analyses of complex business processes and provide appropriate system solutions; identify, interpret, validate and document customer requirements;
- Facilitate workshops to gather business requirements;
- Map operational requirements, processes and customer objectives; develop product changes required to meet customer needs;
- Determine scope, estimated effort required during the project;
- Design, customize, configure and test the FICO module and design integration with third party systems and other SAP modules (MM, WM, PP etc.);
- Act as an intermediary with the customer for problem solving investigating, analyzing and resolving software related problems;
- Deal with urgent changes or transportation as required for high priority issues;
- Document functional designs, test scenarios and results;
- Proactively identify and propose business processes or system improvements;
- Provide advisory services on new locations and existing support projects;
- Act as an intermediary between the business functions and the technical team;
- Provide training and ad hoc user support as required;
- Work independently and act as an expert mentor to less experienced resources.

You have:

- Minimum of 10 years experience in implementation projects (at least one full cycle) and support;
- Minimum of 10 years experience in xx module design and configuration and knowledge of key integration points with other SAP modules;
- Ability to manage multiple tasks, deliverables and projects at the same time;
- Experience in a professional services or distribution company: an asset;
- Understanding of the accounting business processes;
- Ability to understand business processes from the client's perspective;

You are:

- Dynamic
- Flexible
- Self-starter
- Ability to work in a team environment and interact effectively with others
- Result-oriented attitude

At Beyond, we want our employees to be happy and healthy both at work and outside of work. Everything we do and offer our employees is based on our philosophy that investing in our people is beneficial for all of us!

We thank you for your interest; however only candidates who meet the qualifications will be contacted.
