Why SAP

SAP solutions minimize the energy, costs and time devoted to the implementation of world-renowned integrated management solutions. They allow you to exploit SAP application functionalities and benefit from the best practices of leaders in their business segment, on a platform that will always adapt to your business' growth.

Advantages of SAP

- **Superior functionality**
The SAP ERP system provides software solutions that cover all commercial processes and transactions used in a company.
- **User-friendly**
SAP offers a uniform graphical user interface for all application areas customizable with SAP Fiori.
- **High level of integration**
SAP is the most highly integrated enterprise software in the market; no other software integrates into all business departments like SAP.
- **Built on best practices**
SAP solutions are built on industry best practices collected from over 20,000 companies across the globe.
- **Industry-specific modules**
SAP offers industry-specific modules to help businesses benefit from mature userhardened functionalities tailored to your needs
- **Performance and scalability**
Meet the fast-growing needs of businesses with adaptable solutions that allow the addition of all functionalities needed for business activity development.

BEYOND TECHNOLOGIES KEY DIFFERENTIATORS

Beyond's unique set of accelerators

Our propriety accelerators speed up SAP integrations by reducing implementation efforts and costs while optimizing results and time.

- Reflect the experience of several successful SAP implementations across multiple industry segments
- Industry best practices configuration templates
- Result from over 4,500 days of R&D – continuously enhanced
- Detailed documentation for each process (management activity, master data repository, configuration documents, etc.)
- Hundreds of preconfigured industry-specific end-to-end processes for master data, planning, pricing, procurement, merchandise supply, store operations, finance, analysis and reporting

Customized Proofs of Concept (POC)

All demos conducted by Beyond Technologies are customized to reflect the customer's environment. Our demos are typically accompanied by a script provided by the client to help them properly evaluate the functionalities that SAP has to offer. Beyond Technologies has provided multiple proofs of concept in the last decade and has the expertise and capacity to execute flawlessly.

Certified experts with SAP's Activate methodology

Beyond Technologies uses SAP's latest implementation methodology: SAP Activate. SAP Activate's combination of best practices, methodology and guided configuration helps customers achieve fast and cost-efficient deployment of SAP innovations with ONE simple, modular and agile methodology.

Benefits of SAP Activate

- Delivers accelerated time to value and lower total cost of ownership (TCO)
- Provides ready-to-run business processes, optimized for SAP solutions
- Enables co-innovation and improvement with customers
- Includes a comprehensive set of tools for the entire project lifecycle
- Provides a modular, flexible, and agile methodology for delivery

Strong discovery approach experience

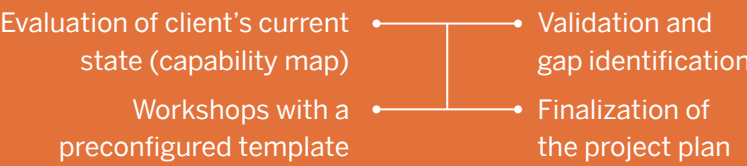

This is Beyond Technologies’ unique approach leveraging a series of workshops with our customers to better understand each of their key business scenarios.
