

# SAP TEST AUTOMATION SPECIALIST

Beyond Technologies is a professional service firm, specialized in SAP solution integration and business process optimization. We are looking for a Test Automation Engineer to join our dynamic team.

## Your tasks:

- Implement, lead scoping workshops, and give training on Automation Frameworks at customers with SAP-Tricentis products.
- Implement and support the integration of SAP-Tricentis products with SAP Solution Manager 7.2.
- Support customers' business analysts and automation specialists daily and track the overall campaign progress as well as its challenges.
- Define automation testing KPIs to evaluate the project success (e.g., average effort to build an E2E test, number of failed executions, product adoption, etc.).
- Track, fix and follow-up on defects and find workarounds when possible.
- Document internal deliverables (knowledge base, installation recipes, etc.) and help consolidate the practice.
- Support R&D activities and internal projects to keep track with the products changes and new possibilities that can maximize our customers ROI.
- Become the go-to person for any matter related to automation testing.
- 

## You have :

- 3+ years of experience in software automation testing web applications, and or client/server applications, with Tricentis Tosca or SAP TTA/ECT equivalent.
- 3+ years of testing SAP Solutions with automated tools from end to end (e.g. from supporting the business analysts to scheduling distributed executions).
- 3+ years as an Application Tester (manual testing) and/or Business Analyst (mapping processes and test cases)
- Experience in at least one of the following solutions: Selenium, HP UFT, Soap UI, Appium, SAP CBTA or Worksoft.
- Experience with relation/non-relational databases and DevSecOps tools (Jira, Github, Jenkins, etc.).
- Experience in designing test defect and reporting/analytics strategies.
- Understanding of testing deliverables within Agile and Scrum methodologies.
- Experience with SAP Solution Manager is a big plus.
- Experience with SAP S/4 (any edition) is a plus.
- Experience with JSON and REST APIs is a plus.
- Experience with Load Testing is a plus.

## You are :

- Dynamic
- Proactive
- Entrepreneurial
- Adaptable
- Confident, with leadership skills
- Solution oriented.

Chez Beyond, nous voulons que nos employés soient heureux, tant au travail qu'à l'extérieur. Tout ce que nous entreprenons, et tout ce que nous offrons à nos employés sont basés sur notre philosophie : nous croyons qu'investir dans nos ressources est bénéfique pour tous!

Nous vous remercions pour votre intérêt envers ce poste. Cependant, nous communiquerons uniquement avec les candidats qui possèdent les qualifications.
