- Map client business requirements, processes and objectives; develops necessary product modifications to satisfy clients' needs
- Design, customize, configure and testing of the respective modules
- Act as liaison with client for troubleshooting: investigate, analyze, and solve software problems
- Document functional designs, test cases and results
- Proactively identify and propose business process and/or system enhancements
- Provide consulting services on both new implementations and existing support projects
- Act as a liaison between the business functions and the technical team

You have:

- At least 5 years experience in SAP as a consultant (experience with S / 4 Hana on-prem or cloud a great asset)
- Exceptional interpersonal skills as well as written and verbal communication in both French and English
- Excellent analytical skills as well as problem solving

You are:

- Solution-oriented
- Authentic
- Diplomat
- Collaborative
- Creative, with innovative ideas
- Motivated and determined to succeed
- Autonomous with leadership
