As a Senior Java Developer, you are involved in all stages of the products/features development and deployment lifecycle of: GK POS, E-commerce, Visual planner and other SAP Solutions.

Your tasks:

- Participate in all phases of the software development cycle as part of a multi-functional Scrum team in Java/Spring
- Ability to debug and troubleshoot issues in distributed software components
- Collaborating with customers and other team members to understand technical and infrastructure requirements
- Taking part in customer facing meetings
- Developing unit and integration tests
- Maintain good code quality, coding standards, increasing unit test coverage, and increase in documentation and code reviews
- Mentor and lead junior members of the team to deliver their task

You have:

- 8 years of experience in Java (8 and 11), SQL, XML, JSON
- General knowledge in design Patterns, REST APIs, Web Services
- Worked with these frameworks: Spring, Spring Boot, JUnit, JPA/Hibernate
- Worked with these frameworks: Eclipse, Maven, Shel
- General knowledge: SSL/TLS certificates, SAML 2.0, OAuth, CI/CD, OWASP Guidelines
- Considered a major plus if you have experience with Node.js, Markdown, YAML, ABAP
- Fluency in English and French, both written and spoken

You are:

- Solution-oriented
- Authentic
- Diplomat
- Collaborative
- Creative, with innovative ideas
- Motivated and determined to succeed
- Autonomous with leadership

At Beyond, we want our employees to be happy and healthy both on and off the job. Everything we do and offer to our employees is based on our philosophy that investing in our people is good for all of us!

Beyond is dedicated and committed to promoting a diversified and inclusive work environment for everyone. Beyond Technologies is an equal opportunity employer and we believe in fostering an environment where everyone regardless of gender, race, ethnicity, sexual orientation, disability, age, or all other identities feels respected, protected and celebrated.
