Senior BI HANA Consultant

Beyond Technologies is a professional services firm, specializing in the integration of SAP solutions and the optimization of business processes. We are currently looking for a Senior BI HANA Consultant to join our rapidly growing dynamic team.

You will be an expert resource in the SAP BI solution within Beyond Technologies and our clients. You will be the person that stakeholders trust to work and collaborate with because of your ability to manage complex challenges by finding cost-effective solutions while demonstrating the added value of your expertise and our solutions.

Your tasks:

- Manage activities and documentation of deliverables and functional/technical design
- Lead in the analysis of AS IS and TO BE deliverables
- Execute functional requirements as input to deliverable design
- Drive deliverable build, test and deployment activities
- Plan and execute data conversion activities
- Develop a target image for the implementation of financial, management control, personnel and logistics indicator systems
- Plan and conduct requirements workshops in collaboration with our departmental and client specialists
- Develop technical solution scenarios based on SAP Analytics Cloud, S/4 HANA or SAP Integrated Planning
- Plan and design modern dashboards and user interfaces for business data analysis
- Perform parameterization and development with CDS views
- Model and create SAP Analytics Cloud (SAC) reports
- Write user supports and lead user training sessions

You have:

- You have at least 10 years of significant experience on BI implementation projects (ETL/DataWarehouse/Cube Modeling/Reporting) and in particular on SAP Cloud Analytics
- Good expertise in Embedded Analytics S/4 HANA
- A good functional experience of ERP and S4HANA on different modules (FI CO / SD / MM...)
- A good understanding of the SAP ecosystem (SAP ERP, SAP S4HANA, SAP HANA, SAP BW, SAP DWC, SAP SAC...)
- Strong expertise with SQL and Python development skills
- You are passionate about innovative technological topics (SAP Analytics Cloud, Embedded Analytics...)
- You have good writing and interpersonal skills in both French and English

You are:

- Solution-oriented
- Diplomatic
- Creative, with innovative ideas
- Self-motivated and determined to succeed
- Autonomous and able to show leadership
- Rigorous, analytical and problem-solving
