

SENIOR SOLUTION DIRECTOR BASIS

Beyond Technologies is a professional service firm, specialized in SAP solution integration and business process optimization. We are looking for a Senior Solution Director Basis to join our dynamic team.

You will help Beyond Technologies by providing the senior technical leadership, architectural vision - conceptualizing functional requirements, architectural approaches, integration methodology as well as application and infrastructure design guidance to deliver high-quality and timely solutions and services that continuously meet our internal and client's business needs.

You will work closely with our internal team and our customers to select the right solutions and ensure that they are scalable and sustainable.

Your tasks:

- Work directly with customers as well as internally with our technical delivery, infrastructure, and architecture and product teams to deliver highly innovative SAP solutions.
- Represent the critical path of technical delivery as the authority on requirements and success criteria, technical and business alike, collaborating across every tier of internal and external stakeholders.
- Bridge customer needs and expectations to the consultants and operational fulfillment being able to understand contractual scope, deliverables, risks and limitations as well as operational practice and architecture.
- Operate in a variety of roles depending on the audience and phase of the project or individual objective
- Act as SAP Basis Architect in projects of:
 - SAP S/4HANA upgrade
 - SAP ERP to SAP S/4HANA conversion (brownfield)
 - Migration from on-premise to Cloud environment
 - SAP S/4HANA implementation (greenfield)
- Participation as SAP Basis Architect in SAP RISE Private Cloud Edition projects
- Participate in pre-sales cycles by facilitating the presentation of SAP programs such as SAP RISE Private Cloud Edition
- Act as a technology coach and mentor for colleagues

You have:

- A minimum of 10 years of experience with Basis (implementation)
- A minimum of 10 of experience with Security for SAP, Fiori deployment
- Experience in SAP upgrade, migration, installation with complex systems landscape
- S4/Hana experience is a plus (Hana experience is a must)
- Deep understanding of LAN/WAN/SAN
- Deep understanding in networking including TCP/IP, layer 2 and 3, VLANs firewalls, load balancers, security zones, management traffic, routing protocols, IPSec, IPS/IDS, etc
- Experience in Sizing is a must
- Experience with governance is a very nice to have

At Beyond, we want our employees to be happy and healthy both on and off the job. Everything we do and offer to our employees is based on our philosophy that investing in our people is good for all of us!

Beyond is dedicated and committed to promoting a diversified and inclusive work environment for everyone. Beyond Technologies is an equal opportunity employer and we believe in fostering an environment where everyone regardless of gender, race, ethnicity, sexual orientation, disability, age, or all other identities feels respected, protected and celebrated.

- Exceptional verbal and written communication skills in English and French (**This is a requirement since in this role you will be dealing with customers, partners and/or our international subsidiaries requiring communication in English on a recurring basis both verbally and in writing*)
- Ability to work in a team-oriented environment and interact effectively with others
- Excellent understanding of cloud platforms (IaaS) such as Amazon AWS, Microsoft Azure and Google Cloud Platform (GCP) for SAP solution deployment
- A good basic understanding of the SAP RISE Private Cloud Edition program
- Excellent understanding of the SAP Business Technology Platform (SAP BTP) cloud platform (PaaS) including knowledge of SAP Cloud Connector, SAP BTP Global Account and Sub-Account
- AWS or Azure or GCP certification would be an asset
- SAP Partner Cloud Architect certification would be an asset
- Knowledge of SAP Activate project methodology would be an asset
- Knowledge of the SAP NetWeaver platform for BW, PI/PO, CAR and SCM would be an asset
- Knowledge of SAP System Landscape Transformation (SLT) would be an asset
- Knowledge of SAP Content Server and MaxDB would be an asset
- Knowledge of the Avantra monitoring platform would be an asset

You are:

- Dynamic
- Flexible
- Resourceful
- Results-oriented
