Team Lead Developer

Beyond Technologies is a professional firm specializing in the implementation of SAP solutions. Founded by a team of experienced consultants in 2005, our strength is to improve and streamline business processes with SAP to provide real and sustainable results for our clients.

We are currently looking for a Team Lead Developer for a contract opportunity in Montreal.

Job Description

Start date: Immediately
End date: February 29th 2024
Duration: 8 months
Location: Montreal
Language(s): French and English

Expectations and Daily Tasks

- Provide specific management expertise and act as project leader for the team in which he/she works: work planning, effort estimation, resource allocation, comparisons with similar projects, etc.
- Supervise and participate in the realization of deliverables.
- Implement and apply quality assurance mechanisms for delivered products.
- Assist managers in making sound decisions regarding all aspects of the project.
- Act as a facilitator in team meetings and workshops.
- Participate in strategic decisions and the development of new proposals.
- Facilitate and participate in setting up the center of expertise required to implement the SAP solution with the customer.
- Based on best practices in this area, set up operations to be ready for post-production support of future deliveries.
- Provide additional expertise in business practices

Requirements

Technical skills:
- Experience in developing and managing large SAP S/4, Fiori and non-SAP development projects.
- Experience in SAP BTP API management and integration with B2B and SAP commerce Cloud applications.
- Experience in integrating SAP and non-SAP environments using SAP PO/CPI as middleware.
- Proven expertise in improving the performance of high workload environments.

You must be resident of Canada and hold a valid work permit to submit your application.
Beyond Technologies is proud to be the "Great Place to work in 2021"
